

INSTITUTE'S COLLOQUIUM

MAX PLANCK INSTITUTE
FOR THE HISTORY OF SCIENCE

Special Screening:

The Land Beneath Our Feet

A Film by Sarita Siegel and Gregg Mitman

Film still from *The Land Beneath Our Feet* www.thelandbeneathourfeet.com/media

The Land Beneath Our Feet weaves together rare archival footage from a 1926 Harvard expedition to Liberia with the journey of a young Liberian man, uprooted by war, seeking to understand how the past has shaped land conflicts in his country today. This film is an explosive reminder of how large-scale land grabs are transforming livelihoods across the planet.
